

Dental Services

Smiles 4 Life, Inc.

The School Based Dental Hygiene Program

Smiles 4 Life is a Wisconsin based nonprofit organization that provides access to quality, preventative oral care and education for students in Pre-Kindergarten through 12th grade. Smiles 4 Life will visit our schools two to three times per year to see participating students. Students will be seen during the school day so that parents don't need to take off of work.

How do I enroll my child?

Forms will be sent home with students in Pre-K through 5th grade. Middle and High School parents will be sent information through their weekly email from the principal.

[Enrollment Packet](#)

Printed forms are available in every school office.

Services Offered

Oral Screenings

Cleanings

Fluoride Varnish (Decay Protection)

Dental Sealants (Cavity Protection)

How much will the services cost?

Smiles 4 Life accepts the Forward Health (BadgerCare) Card but will not bill private dental insurance. If you have private insurance or no insurance there are fees associated with each service. Fee information is included in the enrollment packet.
