

School Nurse

The Wisconsin Heights School District Nurse is responsible for all schools in the district and provides the follow list of nursing services:

- Student screenings – vision, hearing, and blood pressure.
- Training and oversight for medication administration by school staff.
- Creation and coordination of emergency health plans for students.
- Update and report student immunization records per State of Wisconsin Student Immunization Law.
- Training and oversight of emergency response within the school buildings.
- Development and maintenance of nursing and health related policies and procedures for the district.
- Participation in student evaluations for IEP or 504 as needed.
- Collaborate with local health departments in communicable disease prevention, control, and intervention.
