

Student Health Guidelines

Please do not send your child to school if one of the following symptoms is present:

- **Temperature greater than 100.0 degrees F:** may return after 24 hours fever free without the aid of fever reducing medications.
- **Vomiting:** may return 24 hours after last episode.
- **Diarrhea:** may return 24 hours after last episode.
- **Rash:** open and draining or if a fever is also present; may return after 24 hours fever free or on prescribed treatment for 24 hours.
- **Chickenpox:** may return when all pox are dry and scabbed over; about 5 to 7 days after the start of the rash.
- **Head lice:** treatment including removal of nits shall be done at home; may return after treatment is complete.
- **Contagious diseases:** strep throat, impetigo, pink eye (bacterial), scabies, ringworm, and other disease not listed: may return after 24 hours on prescribed treatment.

We will call you to pick up your child if one of the above symptoms is present.

Also, please let the school know of any communicable disease (such as chicken pox) that your child has contracted so the school can take the proper steps to prevent spreading the illness.

*It's important to keep your contact information up-to-date at your child's school.
Please call the office to notify them of any changes.*
